Moving Southern Africa Since 1961

65 Years of Transport Experience | Reliable • Professional • Safety Focused

AGA Transport Company (Pty) Ltd has been providing specialised transport solutions since **1961**. With **65 years of industry experience**, we have built our business around reliability, professional service, safety and the ability to handle challenging transport requirements.

No load too big or too small.

We specialise in the **transportation, lifting, positioning and siting of prefabricated and mobile structures**, as well as general and specialised loads.

WHO WE ARE

AGA Transport has extensive experience in transporting:

- Prefabricated buildings
- Park homes and mobile units
- Modular offices and classrooms
- Containers
- Prefabricated panels
- Accommodation units
- Ablution units
- Construction and site units
- Machinery and plant
- General freight
- Oversized and abnormal loads

Whether moving a single unit locally or coordinating multiple loads across borders, our experienced team works closely with our clients to provide a safe, practical and cost-effective transport solution.

LOCAL & CROSS-BORDER TRANSPORT

AGA Transport provides transport services throughout **South Africa and Southern Africa**.

Our cross-border operations include:

Zambia | DRC | Zimbabwe | Malawi | Mozambique | Botswana | Namibia | Lesotho | Tanzania

Our experience in cross-border transport enables us to assist clients with projects in the **mining, construction, renewable energy, infrastructure, industrial and modular-building sectors**.

OUR FLEET

Our specialised fleet enables us to accommodate a wide variety of loads and transport requirements.

Side Loaders

Designed for the loading, offloading and positioning of loaded containers weighing up to **30 tons**.

Super Links

Suitable for general freight and a wide range of transport applications.

Extendible Trailers

Ideal for transporting **oversized, extra-long and specialised park homes and modular units**.

Crane Trucks

Used for the **lifting, rigging, loading and positioning of containers, equipment and machinery**.

Rollbacks

Suitable for transporting **TLBs, plant, machinery and equipment**.

Tri-Axle Trailers

Used for general freight and loads of up to approximately **27 tons**, subject to legal load requirements.

SAFETY & COMPLIANCE

Safety is an essential part of every AGA Transport operation.

Our drivers, crane operators and general workers are appropriately trained for their respective duties, and our vehicles and equipment are maintained to meet applicable operational and safety requirements.

AGA Transport is **B-BBEE compliant**, and relevant statutory and compliance documentation is available on request.

We are committed to:

- Safe working practices
- Professional load handling
- Reliable vehicles and equipment
- Trained and experienced personnel
- Responsible transport operations
- Compliance with applicable transport and safety requirements

OUR VISION

Our vision is to remain a **trusted and respected transport partner** by providing reliable, safe and efficient transport solutions throughout Southern Africa.

We aim to:

- Maintain our reputation for **reliability, integrity and strong business ethics**.
- Provide flexible and customised transport solutions.
- Deliver prompt and efficient service.
- Build long-term relationships with our customers.
- Achieve sustainable business growth.
- Maintain our fleet and equipment to a high professional standard.
- Provide a safe and positive working environment for our employees.
- Continuously improve our service and operational capabilities.

WHY CHOOSE AGA TRANSPORT?

65 Years of Experience

Established in 1961, we bring decades of practical transport knowledge to every project.

Specialised Equipment

Our fleet is equipped to handle containers, modular buildings, park homes, machinery, plant and specialised loads.

Local & Cross-Border Capability

We operate throughout South Africa and into numerous Southern African countries.

Experienced Team

Our experienced drivers, operators and support staff understand the requirements involved in specialised transport.

Complete Transport Solutions

From **collection and transportation** to **lifting, positioning and siting**, we provide practical solutions tailored to each project.

Customer-Focused Service

Every customer and every load is important to us. We pride ourselves on providing professional advice, responsive service and competitive pricing.

OUR COMMITMENT

At AGA Transport, we understand that our clients depend on us to deliver their valuable assets **safely, efficiently and on time**.

Our combination of experience, specialised equipment and knowledgeable personnel allows us to provide dependable transport solutions for projects of all sizes.

No load too big or too small.
